Prowess

Prowess is an interactive querying system to find companies from the Prowess database. It consists of a client software that provides an interface to construct and submit queries over the internet to the Prowess database and receive answers to the queries from the database.

Prowess therefore is all about interactive querying of the Prowess database.

All queries in Prowess aim at finding companies that match a given set of search conditions. The Prowess interface therefore consists of a large number of query construction facilities, display of query results in spreadsheets and the further use of the results of queries.

The Prowess database consists of the financial performance of Indian companies. The database contains information on all listed companies and a larger set of unlisted companies. The database is built from the audited Annual Reports of companies and information submitted to the Ministry of Company Affairs; and in the case of listed companies, the database also includes company filings with stock exchanges and prices of securities listed on the major stock exchanges.

The client server is developed and maintained by CMIE. Similarly, the Prowess database is also developed, maintained and updated by CMIE.

The Prowess database is updated continuously by CMIE. Prowess accesses this updated Prowess database.

About Book Talk

The Saturday Book Talk is a regular activity at the Library and Learning Centre, organized for the faculty and students from across the campus. The primary aim of this activity is to promote reading habits among our patron and to impart life skills through light reading, philosophy, psychology, self-help, and management-related books. This series has been highly successful in achieving its objectives..

e-PG Pathshala

e-PG Pathshala is an initiative by the Ministry of Education, Government of India, under its National Mission on Education through ICT (NME-ICT). It aims to provide high-quality, digital course content for postgraduate students across various disciplines. Here are the key features and objectives of e-PG Pathshala:

Comprehensive Content:

Offers e-content in over 70 subjects spanning arts, humanities, social sciences, natural and applied sciences, mathematics, and more.
Content includes text, video lectures, animations, quizzes, and assignments.

DID YOU NOW?

- Subject Matter Experts
- Free Access
- Structured Learning
- Multimedia Resources
- Assessment Tools
- Multilingual Support
- Collaboration and Outreach
- Updates and Expansion

e-PG Pathshala is a significant step towards digitizing higher education in India, making quality postgraduate education accessible to all, and fostering a culture of continuous learning and knowledge enhancement.
